Summary of Qualifications

I am a Civil/Structural Designer with 20 years' experience producing structural steel, concrete design and steel detailing. I am competent using Bentley Microstation, Bentley Triforma and Structural, Bentley AECOSim, Bentley Open Building Designer, Bentley ProStructures, Bentley Architectural, Bentley ProjectWise, AutoCAD Structural, AutoCAD Architectural, HsbCAD and Revit Software.
Indigenous Cultural Awareness, Understanding and Reconciliation Education

Experience

April 2022 -
Current

BG&E Resources, Perth, Western Australia
Senior Structural Designer and SMP Designer
Member of the BG&E Resources RAP Committee

Project:

Roy Hill - SP3 Port Hedland BFS:

3D modeling of steelwork design of Transfer Stations, Surge Bin, Take Up's and conveyor modules and walkways in a green field environment.

2D drawings for checking, back drafting and issuing to the client.

3D development of the conveyor profiles and locating mechanical equipment in a green fields environment.

2D mechanical GA drawings and Profile and Data sheets for checking, backdrafting and issuing to the client.

Leichhardt - Eramurra Salt Project BFS

3D development of the conveyor profiles and locating mechanical equipment in a green fields environment.

Pilbara Minerals - P1000 Pilgangoora Lithium Plant - WHIMS Building:

3D modeling of all steelwork layout and design. Issuing model for checking and shop detailing.

July 2019 -
April 2022

CADDS Group, Perth, Western Australia
Senior Structural Designer/Seconded Mechanical Designer

Project:

Rio Tinto - All Sites: 3D modelling of steelwork and concrete designs in brown field environments. This includes, but is not limited to, designs for new maintenance platforms, shedder protections, stair access, belt reeling platforms, crossovers, transport frames, walkways and shade structures. Production of 2D drawings for checking, back drafting and issuing to the client and AFC. Production of MTO's.

Regular site visits to all Rio Tinto sites (Coast, East and West Pilbara) for site measures, site verifications, scanning of existing equipment/structures and liaison with the Rio Tinto clients.

BHP - Nelson Point and Finucane Island: Six-month, on-site secondment based in Port Hedland as a mechanical designer.

BHP - Yandi: New handrail design for Screening building.

BHP - MT Keith: Design of In-loading ramp and Crusher spill face at Primary Crushing.

Mentoring of Trainees/Junior designers.

December 2018 -
July 2019

Jacobs, Perth, Western Australia
Senior Structural Designer

Project:

Rio Tinto - West Angelas: 3D modelling of steelwork design of the secondary crusher in a brown field environment. Production of 2D drawings for checking, back drafting and issuing to the client and AFC. Production of MTO's.

April 2018 -
December 2018

Fluor, Perth, Western Australia
Senior Structural Designer

Project:

BHP - Southflank: 3D concrete design of the transfer station, drive stations, take-ups, crossovers, module footings, bunkers and retaining walls. Production of 2D drawings for checking, back drafting and issuing to the client and AFC. Production of MTO's.

March 2016 -
April 2018

Engenium, Perth, Western Australia
Structural Designer

Projects Included:

Multiple green fields and brown fields projects for BHP, Rio Tinto and FMG. Functions performed include 3D steel work and concrete modelling, 2D drawing production and deliverables, shop detailing deliverables, Process drafting as required and some Mechanical modelling and drafting. Preparation of work packages for handover to Document Control for transmittal to clients. Daily supervision, mentoring and distribution of tasks for drafting trainees.

May 2015 -
October 2015

OFF-SITE, Kelmscott, Western Australia
Structural Designer

Projects Included:

Multiple Dwellings - Sampson Close, Midland: 3D modeling using Revit software designing concrete foundations, concrete columns, suspended slabs and concrete Readyform walls. 2D layout design and details for Council approval and construction.

Readyform walls: 3D modelling and design of commercial and residential concrete Readyform panel walls. 2D production of detailed shop drawings using HsbCAD for a large number of residential and commercial dwellings.

September 2012
- March 2015

Lycopodium Minerals, Perth, Western Australia
Civil/Structural Designer

Projects Included:

Marandoo - RioTinto: 3D modelling and designing concrete foundations and deliverables.

Kansanshi - FQML: 3D steelwork modelling and design of gold room, pipe racks, conveyors and mill building. 2D layout design and details. 3D design of concrete for gold room foundations and 2D layout design and details. 3D design of suspended concrete slab for mill building and 2D layout design and details.

Tropicana JV: Milling HPGR building, HPGR Secondary Crushing and crushing building. Modification of existing plant design drawings, site work drawings and full set of shop detail drawings for fabrication.

Cobre - FQML: 3D steelwork design and layout of the mill building, 2D layout design and details.

February 2012 -
September 2012

FAST JV, Perth, Western Australia
Structural Design Drafting

Projects Included:

Jimblebar Project - BHP: Steelwork design for the Steel Transportation. Layout and detail drawings for all modules.

BHP Billiton: Update of design for Steelwork, Concrete and Mechanical standard

November 2010
- February 2012

AMEC Minproc, Perth, Western Australia
Civil/Structural Design Drafting

Projects Included:

Cloudbreak Enhancement Project - FMG: Design of reinforced concrete on building foundations, ground slabs, ring beams and various other concrete deliverables. 3D steelwork design of cable trays, piperack trusses and associated details.

Port Expansion Project - FMG: Steelwork and concrete layouts, elevations. Details for the conveyor, transfer and sampling stations.

January 2010
- November 2010

UGL Limited, Perth, Western Australia
Civil/Structural Design Drafting

Projects Included:

Lynas Project: Designing pile layouts, substations, gate houses and pipe rack foundations; 3D concrete modelling and issuing of steelwork drawings. **Aurora Project:** 3D modelling of concrete foundations and 2D drawings.

September 2009
- January 2010

Robert Holl Master Builders, Perth, Western Australia
Estimating and Quantity Surveyor

Duties:

Costing of projects using estimating software.

April 2008 -
September 2009

AMEC Minproc, Perth, Western Australia
Civil/Structural Design Drafting

Projects Included:

Sino Iron Ore Project: Designing concrete standards; 3D modelling of suspended slab for filter building; assorted other design duties to assist the lead designer.

Hang Shan Project- FMG: 3D modelling and design drawings for port transfer tower foundations; layout development work for site conveyor foundations.

February 2007 -
April 2008

Matrix Engineers, Perth, Western Australia
Civil/Structural Drafting

Projects Included:

Karara: Project conveyor truss drawings standards

BHP Billiton: Newman workshop ground slab and foundations

John Holland: RGP3 Port project DWG to DGN conversions and editing

November 2006 -
February 2007

Baylann, Perth, Western Australia
Architectural Drafting

Architectural drafting of residential house extensions for Council approval and drawings for Child Care Centres which included all specifications and car parking details, also for submission to local Councils for approval

January 2006 -
November 2006

Pretec Consultants, Perth, Western Australia
Commercial Drafting

Responsible for design drafting and shop detailing of concrete tilt panels for the following projects-

Ikea - Innaloo WA

Parliament House extensions

Kwinana Desalination plant blast walls

Armadale Shopping Centre

March 2005 -
January 2006

McSweeney Partners, Perth, Western Australia
Electrical CAD Tracer

Responsible for producing and editing Flow Diagrams, P&ID's, Schematic Layouts of electrical equipment and introduction of company electrical standards.

Education

2024 Permaculture Design Certificate - Fair Harvest - Margaret River

**2015 A2K Technologies, Perth WA
Revit Structure Fundamentals Plus**

**2006 TAFE, Leederville, Western Australia
Cert 3 Civil/Structural Drafting**
